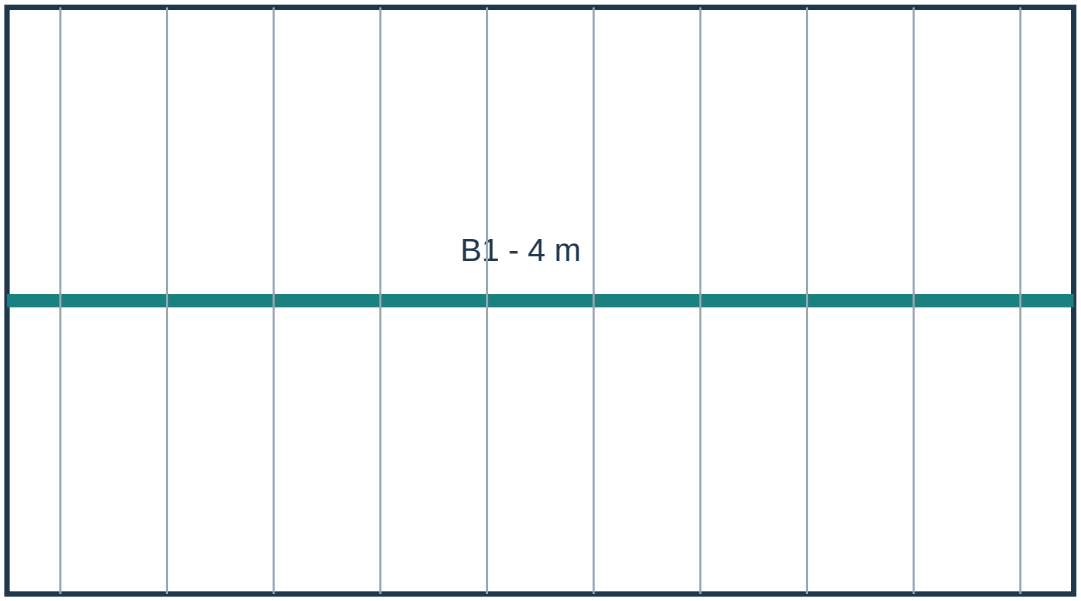
FICTIONAL FRAMING PLAN

Synthetic workflow fixture - not for construction



SYNTHETIC MEMBER SCHEDULE

BEAM B1 SPAN_M=4 TRIBUTARY_M=3 LOAD_KPA=2.5

Simply supported beam; uniform illustrative gravity load.

Expected: w = 7.5 kN/m; M = 15 kN m; R = 15 kN.

All interpretation and results require engineer approval.

No section selection, load combinations or code checks.

Generated from source in engine/make_sample.py. No real project data.
